

2-Year Operating Support Grant Introduction

Before starting your proposal, please review the full program description, including eligibility and evaluation criteria, found [here](#).

Note: This application is for the 2-year grant. *These grants will be made to organizations with which MDBF has an existing funding relationship, defined as having had at least one grant between 2012-2021.* If you haven't had a grant since 2012, **please see the 1-year grant application**. There are separate and distinct eligibility and application processes for these grants.

If you are uncertain about whether your organization is eligible, please call the MDBF office at 919-493-5591 and we'll check the database.

2-year Operating Support Grant: Beginning in 2021, MDBF shifted its grantmaking from project-based support to operating support for organizations that align with our Arts Grant Program funding goals. We offer a two-year grant of \$10,000 each year for a total grant of \$20,000. We anticipate making 10 two-year grants through an open and competitive process.

Guidance for completing the application form

- Although this is a two-year grant, information about programs and plans can focus on the first year. MDBF will have a conversation with grantees toward the end of the first year of the grant to get an update on the organization and its plans for the second year. You will not submit a second application for the second year of funding.
- Optional material: if there is information you would like us to know that doesn't fall within the questions asked, you have the option to attach brief additional information.
- Documents to be uploaded: Organization's Board of Directors list, previous year's operating budget, and balance sheet/statement of financial position.

Funding Goals

Impact of Programming*

How do you determine the impact of your programming? How do you define and measure success? **Provide key evaluation results or evidence of success.**

Possible examples include the number of people served/engaged, ticket sales, and survey responses. Others to consider are new communities reached, new partnerships, social media presence and engagement, membership retention, number of new donors, etc.

You can answer this question based on the "regular" methods used and data collected, pre-pandemic. We recognize that nonprofits have had to change their practices and that you may not have the same evidence of impact during the pandemic. We're interested in the impact of your "regular" model.
